“MUSIC IS MY  
OCCUPATION  
GOOD FOR  
MEDITATION  
GREAT FOR  
INSPIRATION!” —King Sporty

**T**he needle drops onto the vinyl and the record begins to spin. The sound of drums and the ghost of a voice echoes over the crowd. Everything stops for a split second, before the bass kicks in and the vibrations have their irresistible effect...

In a time where music has become homogenised and sold as a cheap commodity, people are seeking a culture they can truly connect with, music with a strong identity, with Roots. INI stands for Hip-Hop, Reggae and Jungle, and all that falls in-between. Many rhythms from one ancient beat.

As more and more youths begin to recognise the history of contemporary urban music, INI events seek to bring diverse peoples together to enjoy both live music performed by outstanding musicians, and records played by seasoned sound system selectors.

Catering to lovers of Roots and Bass music, we employ well-known acts as spearheads alongside new bands, producers and MCs, presenting an innovative and powerful combination of up and coming music alongside Legends of the scene.

Our events deliver a positive atmosphere and unsurpassed sound quality, powered by King Tubby's Hi-Fi, a sound system whose Roots can be traced back to the great Osbourne Ruddock himself. Tubby's know how to tailor their sound to get the best out of any venue, inside or out.

This is just the beginning. An ever-expanding family, Trinity invite all lovers of conscious music to witness the rise of a movement rooted in the message INI and Trinity stand by: Word + Sound = Power
